Did you know?

1. Koala's are not bears, they are a type of animal called marsupial which means their young are carried in a pouch
2. Most koalas live in eucalypt forests in eastern Australia
3. A great place to meet and hold a koala is at the Lone Pine Sanctuary in Brisbane

To think about...

1. Which animals come from your country that aren't normally found in other countries?
2. How many different kinds of cat do you think there are there in the world?
3. How could you slow down the ever increasing kangaroo population in Australia without being cruel?
